

APOGEE HEALTH PARTNERS

Network UPDATES – September 2019

HEALTH PLAN UPDATES & CHANGES:

CountyCare – Apogee’s PCP’s have expressed concern about a document they were asked to sign to participate in a “CountyCare Program”. Apogee is working with CountyCare to eliminate any confusion this document may have caused, and to be certain that Apogee PCP’s and their CountyCare members remain with Apogee for management of healthcare services. Please contact Apogee if you are asked to sign a document for participation in a “CountyCare Program”.

IlliniCare Health Plan announced they will be managing HFS’ HealthChoice Illinois program for children and youth under the care of DCFS effective November 1, 2019. Please contact us with any questions on this Medicaid change.

MeridianHealth announced a change to prior authorizations (PA) requirements effective November 1, 2019. The PA updates impact all lines of business. Please visit the plan’s website for more detail.

HEDIS QUALITY MEASURES:

Easy Opportunity to Capture a HEDIS Quality Measure with health plans for potential bonus payments: Apogee will distribute the tool below in October to assist providers in claims coding of HEDIS data that the health plans will capture and document. The tool is laminated, two-sided and fits in a physician’s lab coat.

CPT II Codes for HEDIS (billed secondary)

Adult BMI ICD-10 Codes
